Verbal Description

Intact earspool of tan to gray clay, burnished on all exterior surfaces. The front of the flange is 1.1 cm across, and it is decorated with notches set at an angle. The notches have a triangular cross-section, and seem to have been cut with a sharp-edged object. The rear part of the spool is 0.9 cm across. It is very flat, and appears to be cut. The exterior of the opening is 0.55 cm on this side and 0.65 cm on the decorated side. Both openings are not completely round. The interior of the opening is 0.35 cm.
